

Raymond Recorder

VOLUME 34 FRIDAY SEPTEMBER 28th 1945 NUMBER 22

Warren W. Depew Passes-- Funeral Friday Afternoon

Raymond lost another old-timer in the death early Monday morning of Warren W. Depew, aged 74, a pioneer of many years in Raymond, passed away at his home here. He had been in poor health for some time, and was in hospital for a time, but had returned home and was on the street a day or two previous to his passing.

Ever since his coming to Canada he had farmed and ranched in the ridge country south of town and was loved and respected by his friends and neighbors everywhere. He was a retiring man with little to say, and taking little public part in affairs, but his judgment was respected and sought after by many. He was a Stampede booster and for years had been on the Grounds Committee and had helped greatly in making our arena and race track what it is today.

He was the father of thirteen children, three dying in infancy, the oldest son Warren being accidentally killed by a horse about ten years ago. Mrs. Depew, the mother of the family passed away about eight years ago. The following children survive: Ralph, Dora, Ray, Atha, Lillian, Lucille, Melvin, Hazel and Maude.

Funeral services will be held in the 1st Ward Church this afternoon at 2 p.m. and will be reported next week.

NEWS NOTES

We have paper for typing student. A good white newsprint sheet at 15c per 100 sheets, at the Recorder.

Mr and Mrs Clarence Bowden have put a foundation under their home and also had it stuccoed during the past three weeks.

Mr and Mrs Wm Lamb are moving into their new home on Broadway this week. Will has been quite busy getting it finished up.

Lieut Ben Hicken of the U.S. Army was a visitor with relatives here for a couple of days last week, leaving for California again on Saturday by plane from Lethbridge.

The Sunday School class of Mrs. J. H. Walker had a party Monday night at her home in support of the Clothing Collection. Some clothing was brought to the party and much more was promised.

Victory Loan Meeting Held

A very successful Victory Loan Meeting for the 9th Victory Loan was held in the Town Hall Monday with the following members of the local organization: Frank Taylor, J. Ray, Wolf Unit Chairman in the D. Hall Wm Wilde, L.J. Palmer, T. K. Roberts, A. M. Bradley, Wm. Jensen, Heber Allen, Jack Pittaway and John Salmon.

Mr. Caudwell pointed out many important features concerning the loan, and he also informed the members that the past 8 loans the sum of \$1,258,850 has been invested, with a total interest of \$37,765 being distributed to loan holders. This means that this amount is being spent locally each year.

In view of this an urgent appeal was voiced that it was hoped our community would again continue their eagerness in support of the 10th Victory Loan.

Those present, and voicing their opinion were the following: Ray Wolf, Unit Chairman; Jas. H. Walker, Unit Organizer; Leo Brew

Ten Days Storm Holds Up Field Work

NEWS NOTES

Mr. and Mrs. Glen Bullock have purchased the Donny Nissen home on 1st street west.

Jas. E. Andersen and his crew were in Stirling Monday and Tuesday this week doing some plumbing work there.

G. C. Davey, local manager of the Treasury Branch returned home Monday evening after spending his vacation in Calgary and Banff.

The Madill home, just east of the Town Hall has been sold to Mr. and Mrs. Helen Dahl and they moved in the middle of last week.

Next Sunday night, Sept. 30th, North America will return to start at midnight. Clocks in Canada and the United States will be turned back and railway time will set back an hour at 2 a.m. as trains will wait at that time to absorb the extra hour.

The frost Wednesday night brought to an end ten days of stormy weather which tied up threshing and field work completely. During the month of September we have had about three inches of moisture which is something very much out of the ordinary for Southern Alberta. There is still some combining and quite a lot of threshing to be done in the country south of town. The grain seems to be coming up again alright after the snow and there is not expected to be any serious damage locally from the storm.

Best digging was to have started last Monday, but the storm again Tuesday and Wednesday set this operation back again. Although a seed weather holds now some growers may start Saturday, but it is not expected that very many will be able to put their plows into the field before Monday. If digging is commenced then, sowing will start about Thursday, October 4th, which will be the latest the factory has started for a number of years.

A full staff has been pretty well lined up for the factory for a week or more and the pipe lines have been pretty well tested out already and everything is in readiness to start just as soon as the men are in the yard and there is a promise of settled weather so that operations can continue.

National Clothing News

At a meeting of the National Clothing Collection Committee held Wednesday of last week in the Shagar Bowl, more detailed organization for the collection was made and receiving depots set up.

Receiving depots are as follows: Central Depot, the Cheese Factory; Auxiliary depots: Raymond Merc. Lumber Yard, John Horvath Shoe Shop and the Hungarian Hall, for men, the latter representing the out of town people only and open every Saturday between 5 and 7 p.m.

The Depot Management sub-committee is as follows: Chairman-Roy Woolley, Vely Hoggie, Matt Ralph, Renan Pack, John Horvath, Mesdames R. McMillan, A. Witbeck, R. Minion and E. Snow.

The drive throughout the Town is scheduled to end October 12th drive.

When a complete canvas of the entire town will be made in one afternoon to clean the whole thing up. Remember October 12th.

The committee for organizing the canvas is as follows: Chairman: Lyman Jacobs, Archie Terry, Herb Wilder and J. D. Hall.

New members of the Committee are Leo Brewerton and Harry Hirtz, the latter representing the out of town people only and open every Saturday between 5 and 7 p.m.

The Mayor will be asked to issue a Proclamation on behalf of the Town in support of the drive.

"WHAT CAN YOU SPARE THAT THEY CAN WEAR?" You can reduce suffering, privation and death by operating wholeheartedly in this drive.

RAYMOND EGG PRODUCERS

On and after October 1st I will be operating the egg room independently, having rented same from the managers of the Cheese Factory. It will be my purpose, as in the past, to give highest grades and best possible prices to producers for the eggs delivered to me, and I solicit a continuance of your valued support in this respect.

Respectfully yours,
Mrs. Geneva Erickson.

SPEED UP SURFACING CALGARY-EDMONTON ROAD

Hard surfacing on the Calgary-Edmonton highway will be completed this season so far as the major sections are concerned, according to information which the Alberta Motor Association has received from the public works department.

The "seal coat" or final stage of surfacing will be applied before the season ends to the highway between Edmonton and Millet. As the section between Wetaskwin and Ponoka has been surfaced already, this means that the hard surface coating now will extend from Edmonton to Ponoka.

The section from Calgary north to Crossfield was completed earlier in the year.

In the Peace River district, work is about finished on the 54-mile road between McLennan and Peace River town, which is being reconstructed and graveled.

Some road projects also are under way in other parts of the province and it is believed that the major ones will be completed during the present construction season.

Arthur Burt Passes

Arthur Burt, 74, old-timer and farmer of the district passed away Wednesday night. He had been in ill health for some time and blind for the past two years. Funeral services are not yet announced.

"WHAT CAN YOU SPARE THAT THEY CAN WEAR?"

In the attics, closets and trunks of Canadian homes are millions of pounds of serviceable used clothing, shoes and used blankets. In the war devastated areas abroad there are millions of people who are suffering and dying because they lack such essential things.

National Clothing Collection offers an opportunity for you to show your patriotism as well as your humanity. By providing war sufferers with these things they most desperately need you will be helping to re-establish themselves and help us in establishing the world peace which is to come.

There is a National Clothing Collection receiving depot in your neighborhood. So that your spare wardrobe is delivered there.

NEWS REVIEWER

MECHANIZATION TO REDUCE FIELD LABOR

The unfortunate experiences of war years, which resulted in decreased sugar beet production, have given impetus to the formation of the Sugar Beet Development Foundation and its plan to "reduce old-time labor requirements by 50 per cent within five years."

This non-profit organization was incorporated in July at Denver, Colorado, and is expected to broaden plans now under way for advancing mechanization of labor in sugar beet fields.

This spring a large percentage of the Canadian acreage was planted with the new segmented seed and effected a slight reduction in thinning operations. This fall, extensive plans have been arranged for a trial of mechanical harvesters in Ontario which beet growers and refiners will watch with interest.

The Mutual opening parties in both wards were held Tuesday evening and because of the weather preventing any field work, there was a good attendance present. An interesting program was held, which introduced phases of the winter's work, and the evening concluded with dancing.

BURLAP SKIRTS, instead of real pants, and no shoes, stockings or underwear is the war-imposed style for these homeless Greek boys and thousands like him. To help protect these war victims against cold and disease, round up all your serviceable used clothing for the National Clothing Collection which will be carried on throughout Canada from October 1st to the 20th. The drive is sponsored by the Canadian United Allied Relief Fund and distribution to the liberated peoples of Europe will be under the direction of U.N.R.R.A.

Waterton Lakes claimed its second drowning victim last Thursday when Peter Larson, 47, single, was drowned in Boundary Bay. He had recently purchased the wood business of a fellow resident and had engine trouble in the Bay and was seen to be thrown into the water and at last reports his body had not been found.

The fire over meat rationing continues across Canada. Butchers in some cities remain locked up in protest and strikes in industry in some sections are blamed on rationing. However, the Government says rationing will stay until its object has been accomplished.

Liam Yuen Ing, 65, Chinese merchant in Calgary was beaten to death Tuesday night about 7:30 by an unnamed bandit who made off with about \$23.00. The bandit waited in the cafe for about two hours and customers in the store have furnished the police with a detailed description of the man and his wearing apparel.

The Leaside branch of the Royal Bank of Canada in Toronto was robbed of a payroll of \$15,000.00 Wednesday when four men, one with a tommy gun entered the bank, fired two shots into the wall and then commanded the staff to lie on the floor in the vault while the money was copped up and the robbers made off with the loot.

The Aaronic Priesthood quorums were featured in the 2nd Ward Sacrament meeting Sunday evening when the topic was "The Visit of the Angel Moroni to the Prophet Joseph Smith." The speakers on the subject were Elders Alma Sommerfeldt and Alvin Bullock. Glen Walker sang a vocal solo and the Aaronic Priesthood Chorus of the ward sang the opening and closing numbers. Jimmy Heninger and Don Sabey offered the prayers.

NEWS NOTES

Holt's have recently purchased a three ton Fargo truck and last week had a beet box built for it.

The regular monthly meeting of the Ladies Aid will be held at the home of Mrs. F. Crammer on Thursday October 4th at 8 p.m.

Mr and Mrs Maurice Cleper were busy the first of the week moving into the C.W. Lamb home which they recently purchased.

Travel to the ridge this week was confined to team and buggy. Part way out the roads were open for cars but the last six or seven miles were snowbound.

The technical institute in Calgary will open the first of the week and Mr and Mrs Fob Graham were local students will be leaving Sunday to enroll. Amongst those from here this year will be Jimmy Higgins and Jimmy May and possibly Doug Dencombe.

Dr and Mrs. Madill and children were honored at a going away party in the United Church last Friday evening. The Ladies Aid had organized the social and served refreshments and a very enjoyable evening was spent in games and singing. As a token of appreciation, Dr Madill was presented with a purse of money by the congregation.

Miss Vivienne Scilfo, who is leaving soon for a mission in California, was guest of honor at a farewell party in the 2nd Ward last Friday night. A program was held during which the departing missionary expressed her joy at the privilege of taking part in this work, and the balance of the evening was spent in dancing.

A Benefit Dance and Raffle of Chocolates is being held Saturday night this week by Mildred's Literary Club. The dance is in the Opera House, and tickets are being sold for the candy. Help a worthy cause and attend this function.

Mrs. M. and Mrs. Wm Jensen left Tuesday for Provo, Utah, taking their daughter Miss Lois to attend the BYU there this coming winter. They expect to visit relatives in Utah while away.

Mr. and Mrs. J. Lelloy Anderson and Mr and Mrs Fob Graham were in Great Falls Tuesday and Wednesday, taking their daughters Moselle and LeVon that are on their way to Provo to attend the BYU. Other Raymond ones attending are Terry nysen Smith and Reid Dahl.

At Rotary on Monday, three of our new teachers and our two principal were present to be acquainted with the Club members. The new teachers present were Messrs. Miller, Erickson and Nadder and Principals Jacobs and Hicken. T. Geo. Wood was in charge of the program and each teacher was given a question pertaining to school work, and asked to speak briefly on it. Some very interesting thoughts were given by the teachers and on behalf of the Club, T. Geo. Wood pledged the support of every Club member for any improvement in our schools. The luncheon was very much enjoyed and the company of our teachers and their ideas was appreciated by the Club.

SEVERAL FINES IN RECENT CASES

The policeman has had several cases before the local J.P. in the past two weeks and has obtained convictions in all cases. Not that convictions are what he likes, nor arrests either, but some people seem to assume that they can take the law into their own hands and not be checked on.

Local cases included one fine on a liquor charge, one on causing a disturbance and the most serious a couple of young men, who presumably bioyed up and strengthened by a certain quantity of beer, went up to the High School and with an empty bottle as a weapon, drove it thru thirty-four panes of glass in the windows there, the bottle being found inside on the floor, apparently being left as a memento.

The School Board, and the police are reluctant about taking action on such cases, but when grown men will deliberately destroy property and add to the taxpayers burden it seems that action must be taken. School Board members feel that aside from the value of the destroyed property, there is a question of morale there that must not be ever weakened. We have more than 700 pupils in our schools, and all of these pupils are there not only for scholastic instruction, but also for being taught discipline and proper behavior. It could hardly be expected

that if such actions as the above were not followed up and those responsible punished that much could be accomplished in the disciplining of 700 students.

We have been suffering from an epidemic of petty thieving in Raymond in church houses, school houses and recreation halls for a long time that is a disgrace to any town. One hardly dare wear rubbers any place for fear of losing them, and the better the rubbers or overshoes the greater the risks. Pencils, eraser, rulers, anything that cannot be branded and watched disappear; of course nobody knows anything about them but they disappear just the same.

We are sure that all right thinking citizens will support the School Board and the public in their efforts at law enforcement, and we rather fear that it is a reproach on all of us, fathers and mothers and everyone else that we will go to church, and then come out and wear somebody else's rubbers home. What think ye folks, is this brotherly love? Is this Christianity? Shall we do what we can do to improve the situation by upholding those who endeavor to maintain order?

CORRESPONDENCE

ON MEAT SHORTAGES

Dear Sir:

The threatened shortage of meat which has brought about the necessity for meat rationing is a direct result of the short-sighted policy of the Dominion Government towards hog production.

Had the necessary raise in price which was requested by the Alberta Farmers' Union been granted together with an adjustment of the bonus paid on their grain whether fed or sold, pupils in our schools, and all of these pupils are there not only for scholastic instruction, but also for being taught discipline and proper behavior. It could hardly be expected

In the standing grain competition amongst the Boy's wheat Clubs of the Province the three local prizes were all won by Japanese boys as follows: 1st, Shoji Koyama; 2nd and 3rd, Marshall and Robert Hironaka tied.

In our view a policy of strong encouragement for increased meat production is required and if this is done then rationing will soon be unnecessary. Hog production in Alberta has been reduced approximately 35 per cent because sufficient encouragement was not given.

At present Canada has plenty of cattle and if these are put in feed lots the beef can be produced from the cattle we already have. If the Government will guarantee that it will be profitable for farmers to feed the present cattle in the Province into butcher beef, and at the same time see that the feed is available to them, or else transport the cattle to the feed, the farmers will respond in a way that will soon make rationing unnecessary.

If rationing causes less demand and this results in unfinished cattle being sold at sacrifice prices, the final net result will be a reduction in cattle herds. This will necessitate even more severe rationing next year.

Rationing in itself only tends to restrict meat production while the real solution is the encouragement of plentiful production making rationing unnecessary.

The Government has said the best way to combat "inflation" is by the plentiful production of consumer goods and we agree with this. What is needed is a bold policy for increased production of both beef and pork and if the Government will do its part by guaranteeing the farmer a remunerative price, the farmer can be depended on to guarantee there will be no need for meat rationing in Canada, nor any shortage for shipments abroad.

Yours truly,
H. E. NICHOLS

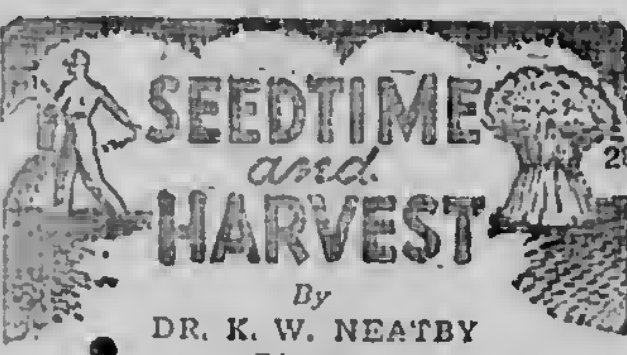

HONORABLE THOMAS VIEN, P.C., K.C., vice-chairman of the National Clothing Collection sponsored by the Canadian United Allied Relief Fund, and one of the active workers in organizing the nation-wide campaign, scheduled for October 1-20, for the collection of serviceable used clothing for distribution by U.N.R.R.A. experts among the suffering millions in liberated European countries.

WHITHER?

He isn't sure of where to go, Or what he ought to do, His hopes range through a dozen fields

Although his skills are few; And unless someone lends a hand To guide him on his way, There may be one more problem child Whose keep we all must pay. So why not take a little time To sit down with him now, And find out what he wants to do And where he lives, and how?

Back To School

Our work is aimed at serving farmers in the Prairie Provinces, and we have reached many hundreds of farmers through country schools. Practically every day we receive requests from teachers, students, or both, for some of our publications. This week, schools are opening all over the country. Many of the publications listed below will be helpful to our youthful readers in school studies. They may be obtained from Line Elevators Farm Service, Winnipeg, or through a Local Line elevator agent.

BULLETINS

We're rolling AND IT'S FULL SPEED AHEAD, TOO!

IN the last few weeks prior to October 1st, we've been straining every muscle to get your plants in shape to open on time. And now we've done it. And we're mighty pleased to announce that it's in full swing.

IF you have not yet listed your horses with us or your Agricultural Representative, do so at once. We will be taking a quota from your district soon and you can be sure of being on it if you have listed your horses and have bought a share of one dollar a head for every horse you wish to list. You, the producer, will benefit because it's your Co-op and the more you co-operate the more benefits you will reap.

List Your Horses Today!

Just drop us a line today giving us your address, how many horses you wish to send and your remittance.

WARNING Do not send horses in to the plant unless you have been properly instructed to do so. The Co-op assumes no responsibility for the handling of horses where proper shipping instructions have not been followed. Further information will appear in our weekly newspaper or can be obtained through your Agricultural Representative.

Please send listings and further enquiries to Swift Current, Sask.

NEW BEAVER LAUNCHED: First of four fast-freight liners being built for the Canadian Pacific Railway to replace the five Beaver boats lost during World War II the Beaverdel is shown here during her launching on the Clyde at Port Glasgow, Scotland, late in August. The 10,000-tonner, which took to the water before a distinguished gathering headed by D. C. Coleman, chairman and president of the C.P.R. and chairman of Canadian Pacific Steamships, is expected to be in service early next year and will resume the London-to-Canada run as soon as possible.

WEEKLY LETTER

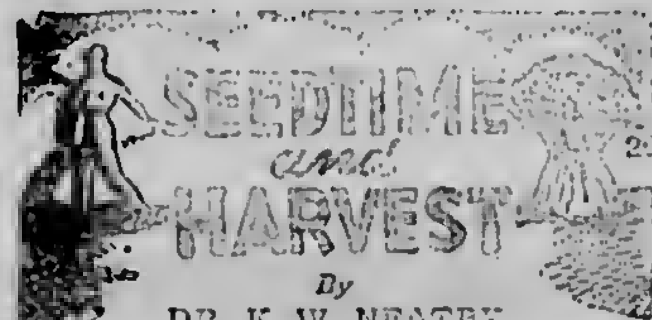

WINTER WHEAT

The interest shown in winter wheat, particularly in Southern Alberta, has increased very rapidly in recent years. Several factors have been responsible for making this crop more popular, the chief ones being: 1. the increased price, (a premium of 10 cents per bushel now being paid instead of a discount of nearly that amount until recent years); 2. It provides a more even distribution of labor requirements, particularly at harvesting; 3. It gives a partial protection against soil drifting; 4. It is being used to some extent for fall pasturing.

Lethbridge is located in the centre of the district which has long been looked upon as the most dependable area for winter wheat. The Lethbridge Experimental Station has been experimenting with winter wheat ever since the Station was opened thirty-eight years ago. At that time winter wheat was the chief crop grown here.

The data accumulated over this period of years indicate that winter wheat can be expected to give a slightly heavier average than spring wheat.

Karl Dahl has purchased the old Arthur Dahl home on 2nd Street South, where Ruten Dahl has been living for a number of years, and Karl's family moved in there last week just before the storm commenced.

By
DR. K. W. NEATEY
Director
Line Elevators Farm Service
Winnipeg, Manitoba

Seed Testing Service

In accordance with a promise made nearly two years ago, Line Elevators Farm Service now offers a complete seed testing service to growers of wheat, oats, barley, rye and flax. Examination and testing of samples will include consideration of five important factors.

1. **Germination.** Tests will be made as heretofore.
2. **Weed Seeds.** The presence of noxious weed seeds will be reported on request.
3. **Smuts.** All wheat samples will be tested for bunt (stinking smut) and tests will be made on oats or barley if requested. Reports will include recommendations as to seed treatment.
4. **Other Diseases.** As samples are removed from the germinators, they will be examined for the presence of other diseases.
5. **Mechanical Damage** to the seed will be determined since it has an important bearing on the method of seed treatment.

Farmers should instruct elevator agents as to which tests are required. Wheat samples will be grown and examined for varietal purity next summer if the farmer so desires.

This is the only single laboratory in Canada equipped to perform such a service. The equipment is first-class and the staff well trained. No effort has been spared to insure that methods of testing shall be similar in all essentials to those developed in Dominion Government laboratories.

Samples should be at least 4 ounces and not more than 6 ounces. Line Elevators agents will provide envelopes and send the samples to Line Elevators Farm Service, Winnipeg.

The Lethbridge Station is making an effort to make the growing of winter wheat safer and more adaptable to a wider area. This will be accomplished by the development of varieties that are more winter hardy and more resistant to root rot than those which are in common use today. In order to determine the winter hardiness of varieties available at the present time, test plots, including twenty varieties, have been sown this fall at seven sub-stations, namely, Foremost, Whiffa, Pincher Creek, Carleton Place, Hellsburg, Craigmyle and Acadia Valley. The same varieties have also been sown at the Dominion Laboratory of Plant Pathology in Edmonton.

In order to compare varieties from the standpoint of root rot resistance and to determine the earliest date on which seeding can be practiced without encountering trouble from this disease, a few of the most important varieties were sown at intervals of two weeks, commencing on July 14th. Seeding in this test will be continued until October 15th. The test is being conducted both at the Lethbridge Station and at the Pincher Creek Sub-station.

The Lethbridge Experiment Station would appreciate hearing from farmers in the different parts of the Province, particularly those at distant points, giving as much information as possible regarding their experiences with winter wheat. This will assist greatly in determining how wide an area can be considered safe for winter wheat and what factors seem to contribute most towards success or failure with this crop.

MAKE MISTAKES

The galleries are full of critics. They play no ball They fight no fights. They make no mistakes, he cause they attempt nothing. Down in the arena are the doers they make many mistakes because they attempt many things. Ford forgot to put a reverse gear in his first automobile Edison once spent over two million dollars on an invention which proved of little value.

The man who makes no mistakes lacks boldness and the spirit of adventure. He is the one who never tries anything new. He is a brake on the wheels of progress

KEEP THE SOIL WHERE IT BELONGS

Four to six inches is the average depth of top soil on Alberta fields and it is in this shallow layer that the available plant food is produced. This layer has been a long time building up, but it can be destroyed very quickly as a result of improper cultivation.

Tiny gullies in a field caused by the spring run off may not look very serious, but they are signs that the soil is on its way. This erosion can be checked in the early stages by soiling that the fields go into winter protected by a trash cover or a ridge eries around here for two years."

ed lumpy surface and that the ridges are running in the right direction. Each inch of top soil washed away means the loss of enough plant food to produce twenty to thirty average crops of wheat.

"What's your name?" the grocer asked the young applicant for the

"Scott—Walter Scott," the boy re

"That's a pretty well-known name remarked the grocer smiling.

"It ought to be," the boy said proudly, "I've been delivering groceries
